THE UNAM GERMANY OFFICE

extends its sincerest recognition to the research groups led by **Dr. Helena Gómez Adorno** and **Dr. Peter Reichertz** for the successful completion of the project “**Medical Informatics with Artificial Intelligence**”.

Thanks to this collaborative effort, academic ties between our university and the **Technische Universität Braunschweig** were significantly strengthened, leading to important scientific advances in the field of **artificial intelligence**.

Recognition is due for the exceptional efforts in developing and nurturing human resources in this field.
